- The APA Exam Scholarship provides financial support to astrology students wishing to undertake the FAA Examinations. Four scholarships are available on an annual basis with no more than one scholarship per year per student. Successful applicants may apply again for assistance with further exams, as long as they pass the exams they have sat. The APA exam scholarship includes provision for a successful candidate with verifiable, valid extenuating circumstances to defer the scholarship to the following year only, or if in the case of the Specialist and Relationship Exam, when it is next offered (biennially). To be eligible for this package the applicant must meet the following criteria:
- Be a current member of the FAA and an Australian resident.
- Be intending to sit all four of the FAA Examinations over the next few years. Preference will be given to students who have already [successfully] begun the FAA examination process.
- Be planning to become an APA member when they are qualified and be willing to undertake the supervision necessary to become an accredited professional astrologer.
- Be able to provide a written application sent by email to APA stating the reasons how / why the sponsorship would assist them. This may or may not be due to financial hardship.
- Recipients of the scholarship be willing to provide a biography and photo for the APA Newsletter and must be willing to have their name and photo republished when they have passed any examination that the APA has sponsored.

More details of the scholarship along with instructions for applicants are available in the document, **APA Exam Scholarship Guidelines for Candidates**, which can be found on the APA website www.apainc.org.au
